Distinguishing features:

Copeland® CoreSense Diagnostics

Constantly monitoring the performance of your Amana brand air conditioner, this advanced diagnostics system provides insight for accurate troubleshooting and quick diagnosis and repairs. Using the compressor as a sensor, CoreSense Diagnostics delivers active protection and will proactively shut the system down should it detect conditions that could damage to compressor. As a result, catastrophic failures and extensive, costly repairs are often avoided.

Quiet Performance

You can be assured that your Amana brand air conditioner will provide you with quiet operation. To minimize operating sounds, we've acoustically engineered our systems with enhancements such as a specially designed sound-control top.

Energy Efficiency

Energy efficiency equates to cost savings. Your Amana brand ASX13 Air Conditioner offers up to 14 SEER energy-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Compared to lower SEER units found in many homes, am Amana brand ASX13 Air Conditioner can provide significant savings on your electric bill.

How the Amana® brand makes your decision easier

The purchase of an indoor comfort system is not one to be taken lightly. However, it's one you can make with an air of confidence when you consider all that distinguishes the venerable Amana® brand.

Comforting craftsmanship

Innovative engineering, world-class manufacturing processes and the relentless drive to ensure each unit lives up to our uncompromising standards — these attributes define the Amana brand and result in the premium performance homeowners have come to expect from an American legend. Assembled in facilities in Tennessee and Texas, Amana brand products are built to last and last and last.

Confidence-inspiring compressor

With Amana brand air conditioners, your comfort and savings start with an energy-efficient scroll compressor designed to provide years of reliable cooling comfort. The scroll compressor is complemented by our

durable, high-efficiency condensing coil, which is made with corrugated aluminum fins and refrigeration-grade copper tubing.
